

Images Research Forum

The Images Research Forum returns for our 30th anniversary after having a successful inaugural year. The new educational initiative will take place during the 30th edition running from April 20-27, April.

Understanding the need to support the creation and dissemination of critical thinking and dialogue in contemporary moving image culture, Images Festival is inviting undergraduate and graduate students (and those graduated in the last two years) to submit presentation proposals for the Images Research Forum. We encourage proposals that engage creatively with the public lecture as a format, both in its content and form.

Selected participants will have an opportunity to present a 15 – 20 minute presentation at the festival and receive a festival pass. There are no registration fees. Local, national, and international applicants are welcome. Unfortunately, no travel subsidies are available at this time.

Please send a 250 word abstract to submissions@imagesfestival.com by **February 15**. Successful applicants will be notified by March 1.

Application may also include:

- Full Resume/CV
- Up to 10 supporting images and/or 1-2 video clips
